

COMPANY QUALITY POLICY OF 'FOCUS ON ONE THING WITH CRAFTSMANSHIP SPIRIT'

Independently developed by Guangmai, Patent No: accessories202130770004.9
paint roller 202122829852.4

Application scope:
suitable for roll-on coating on blade and tower barrel

Material saving 30%+

Saving time and labor 50%+

No dipping, no splashing, no dripping, wastage rejected.

operators stay away from coatings prevent being contaminated

workplace is clean and tidy, easy to learn and handy operating.

>product introduction <

The blades and towers are automatically loaded by machine without dipping, no splashing, no dripping, paint film thickness can be well controlled. Suitable for Water-based and oil-based paints. The facility is equipped with dedicated roller cover which is made of special materials and craftsmanship, featured with leading entirely lint free performance globally. No need to eliminate lints by tape, no coating marks generated, the construction quality has been significantly improved.

Explosion-proof standard of Automatic coating machine for wind turbine blade & tower barrel

Telescopic pole
7.5M

- ★Explosion-proof motors
- ★Explosion-proof batteries
- ★Safe and secure
