HONGFA TECHNOLOGY, FOR A BETTER LIFE!

- ❖ CHINA' S TOP 100 ENTERPRISES OF ELECTRONIC INFORMATION (THE ONLY ONE IN RELAY INDUSTRY)
- ❖ CHINA' S TOP 100 ENTERPRISES OF ELECTRONIC COMPONENTS FOR 24 CONSECUTIVE YEARS
- ❖ ONE OF THE FIRST AND MAJOR HI-TECH ENTERPRISES FOR NATIONAL TORCH PLAN
- ❖ NATIONAL EXPORT BASE FOR AUTOMOTIVE COMPONENTS (THE ONLY ONE IN RELAY INDUSTRY)
- ❖ NATIONAL INTELLECTUAL PROPERTY DEMONSTRATION ENTERPRISES

SALES SERVICE HOTLINE: **400-600-1502**

01 ENTERPRISE PROFILE

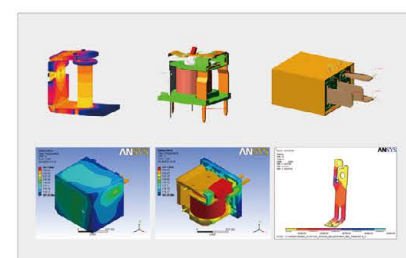

Hongfa Group (Stock Code:SH600885), ranked Top 1 in Chinese relay industry in terms of overall economic effectiveness, is the largest base for relay R&D, manufacturing & export.

With regard to R&D, Hongfa focuses on development and application, absorbing & transferring the most cutting-edge technology from international industry. Hongfa owns the National Enterprise Technical Center, the largest and most comprehensive, well-equipped testing lab in Chinese relay industry, the first Post-doctoral Research Station, Academician expert workstation etc. Meanwhile, Hongfa presides over or participates in formulating professional or national standards, implements several national key projects and promotes the industry development.

Hongfa products cover variety of categories which include relays, low-voltage devices, L/H volt. complete equipments, precision & automatic equipments. Hongfa products are currently being exported to over 120 countries and regions and Hongfa has established local sales & services networks in several countries and regions with strong global marketing operation and technical support capability. The customers of Hongfa are well-known enterprises from variety of fields which cover industry, energy, transportation, information, home appliance, medical care and national defense etc.

Vertically integrated relay manufacturing chain

From market design, product R&D and innovation, process design, mold designing and manufacturing, precision component production, automatic production line development, product inspection & testing to global logistic service, Hongfa keeps striving for excellence from all aspects. Through over 30 years of exploration & technology accumulation, Hongfa has successfully established a world-class vertically integrated relay manufacturing chain.

R&D and Innovation

Mold Designing and Manufacturing

Precision Component Production

Testing & Analysis

Quality Assurance

High-effect Automatic Production Line

02 HONGFA PRODUCTS

Relay

Hongfa has been devoted to relay R&D and manufacturing for more than 30 years, with an annual production capability of 2.0 billion pieces.

Power Relays
Hongfa is one of the main relay suppliers for the global household appliance industry.

Automotive Relays
Hongfa has a solid background in automotive relays and electronics. Currently, Hongfa offers three series of patented automotive relays and is a trusted supplier for world-renowned automobile manufacturers.

Latching Relays
Hongfa latching relays are in accordance with IEC62055 and ANSI (American) standards. They can withstand short-circuit currents up to 12,000A and are explosion-proof.

Industrial Relays
Professional industrial relay manufacturing supplier, products are capable for different control requirements in industrial control under variety of load requirements, active response and promote the implement of Industry 4.0 & Made in China 2025.

Safety Relays
Hongfa safety relays comply with EN 50205 standards and can perform automatic fault detection. They are widely used in plastic machinery, machine tools, machine manufacturing, and elevators.

HVDC Relays
Growing interest in environmentally-conscious fields, such as alternative energy cars and solar power generation, has increased the demand for high voltage DC relays. Hongfa has proactively developed products necessary for these applications.

Signal Relays
The exclusive R&D center of the 3rd & 4th signal relay with independent intellectual property rights.

Hermetically-Sealed Relays
Hongfa produces a variety of subminiature hermetically-sealed relays. The series includes crystal can, cubic inch, RF coaxial, and TO-5. These products are nitrogen-protected, metal-covered, laser-welded, and laser-marked.

Electrical Product

Products are widely applied in intelligent power transmission and distribution system, large industrial and mining enterprises, new energy, industrial control, real estate & other significant fields.

Distribution Devices
Hongfa is a leading supplier for distribution devices, such as ACB, MCCB, MCB, ATS, SPD, and DP/IEC contactors.

High & Low Voltage Switchgears
These products are listed in the Chinese national power grid and by other major equipment and production companies.

Capacitors

Provide customers with one-stop solution of film capacitor application such as the fields of new energy, reactive compensation, AC filter, lighting, telecommunication, home appliance, power supply, industrial control etc.

Automation Equipment

As the market demands smaller relays with higher performance parameters, Hongfa diligent and creative R&D team has devoted their efforts toward developing and manufacturing automated production lines to ensure consistent product quality.

New Products

Hongfa is dedicated to continuous innovation and development and the active expansion of new product categories.
