**GLOBAL SUPPLIER
TO THE OFFSHORE
INDUSTRY**

全球化的海工行业供应商

Aluwind was founded in 2008 in Odense, Denmark. Today it has 40,000+ production and warehouse areas with 400+ staff globally in Denmark, Poland, China, and Turkey. Total revenue is about 30-50 million EUR per year. It has been designing and producing robust, lightweight structures for onshore and offshore use.

In addition to aluminum, Aluwind has a solid record in utilizing steel for projects requiring enhanced strength and durability. Our expertise in both materials allows us to deliver tailored solutions that meet the demanding conditions of offshore environments.

Aluwind brings experience in cost-efficient product design, mass production, and standardization into the offshore sector, leveraging the unique advantages of both aluminum and steel to create innovative and reliable structures.

Aluwind 于 2008 年在丹麦欧登塞成立。如今,它在丹麦、波兰、中国和土耳其拥有 400多名员工以及 40,000多平方米的生产和仓储场地,为陆上和海上的工程项目设计并制造坚固且轻量的结构件。年营业收入达 3-5千万欧元。

除了铝合金,Aluwind 也有丰富的钢材应用经验来满足对强度和耐用性有更高要求的项目。我们在钢、铝材料方面的专业知识使我们能够提供定制化的解决方案来满足海上严苛的环境要求。

Aluwind 将具有成本效益的产品设计、大规模生产和标准化方面的经验带入海洋工程领域,利用铝和钢的独特优势来提供具有创新性和可靠性的结构件。
