

China Electronic Cowan Systems Co., Ltd.

China Electronic Cowan Systems Co., Ltd. (hereinafter referred to as "CECSYS"), founded in 2010 and headquartered in Beijing, is a national-level "Specialized, Refined, Distinctive, and Innovative" (SRDI) Little Giant Enterprise and a National High-Tech Enterprise.

CECSYS specializes in manufacturing intelligent electrical equipment. The company operates two R&D centers (Beijing and Wuhan) and three production bases (Hebei, Anhui, and Xinjiang). It provides comprehensive solutions for power grids, renewable energy sectors, and enterprise customers, including: Electrical intelligent components, High- and low-voltage switchgear, Intelligent distribution cabinets, Transformers, Renewable energy intelligent pad-mounted transformers, Wind turbine condition monitoring systems (WT CMS) as well as IoT-based management platforms such as: Smart power utilization systems, Power IoT platforms, Energy efficiency management systems (EEMS), Energy consumption monitoring systems (ECMS), Carbon management systems (CMS), Wind power intelligent O&M systems.

The company holds multiple industry certifications, including: Grade II Professional Contracting Certificate for Electronic and Intelligentized

Engineering, Grade II Power Engineering Construction General Contracting Certificate, Class IV Power Facility Installation, Repair, and Test License, Grade I Security Engineering Enterprise Design, Construction, and Maintenance Certification, CMMI Level 3 Certification for software maturity.

Leveraging these qualifications, CECSYS delivers engineering construction and project operation & maintenance (O&M) services to clients in the renewable energy sector.
