

## ASM FASTENER

### ASM Fasteners – Offshore Wind Power T-Bolt Manufacturer

ASM Fasteners makes T-bolts for offshore wind projects, with sizes from M39 to M72 and lengths up to 5 meters. All bolts are forged in one piece without welding, with strength grade 10.9, and keep impact toughness above 27J at -50 °C. Each bolt is checked by ultrasonic and magnetic particle testing.

Founded in 2010, ASM is an ASME-approved fastener maker in China. The company holds a Special Equipment Manufacturing License (Pressure Piping) from the China Special Equipment Inspection and Research Institute (CSEI), and is listed as a High-Tech Enterprise in Jiangsu Province. ASM also has ISO9001 (Quality), ISO14001 (Environment), and ISO45001 (Health & Safety) certificates.

ASM products are approved by NORSOK M650 (Norwegian oil industry) and CE (European Union). The company is also certified by the American Petroleum Institute with API 20E (carbon and alloy steel bolts) and API 20F (corrosion-resistant bolts). In addition, ASM meets PED 4.3 (Pressure Equipment Directive), CPR 14399 & 15048 (Construction Products Regulation), AD 2000 (German pressure standard), and DAST-021 (German Wind Energy Association, M39–M72 high-strength bolts). The factory can issue EN10204 3.1 certificates by itself.

**Employees At Ease ·Quality At Heart·Customers At Peace.**
